Dear Sir:

I strongly support petition to BIAW  
the dreadful factory ~~montana~~ of layer hens.  
and ask that you enforce this law.

Only female hens produce eggs & therefore  
280 million male chicks are suffocated into  
plastic bags to suffocate slowly or be  
crushed cruelly to their death!

— Hens are unrecognizable as hen only  
after a year of living in a cage!

— The natural lifespan of a chicken is  
15 to 20 years. Broilers are slaughtered at  
7 weeks, layers at 1-2 years!

— Molting (forced) is a major cause of  
Salmonella poisoning to humans — we eat  
their contaminated eggs.

— Factory birds are starved for up to 8  
weeks also.

May all of the above atrocities be  
enjoy seen — please help!
